

The Times-Democrat.

VOL. XIV. NO. 16.

LIMA, OHIO, WEDNESDAY, NOVEMBER 3, 1897.

PRICE THREE CENTS.

IN DOUBT.

Both Sides Claiming the Ohio Legislature.

IN CLOSE COUNTIES

Official Count Will be Necessary to Tell Who Won.

IT LOOKS LIKE BUSHNELL

Had Been Elected Governor, but by a Greatly Reduced Majority.

Information concerning the result of yesterday's election in Ohio is very meager. A light vote was polled over the entire state, and in a number of close counties it will require the official count to determine who are elected as members of the legislature. The latest dispatches indicate the election of Bushnell by a slender plurality of less than 10,000, and both sides are claiming control of the legislature.

Official information gives the Democrats a member of the legislature in Van Wert, Paulding and Logan counties, all of which have been watched with great interest by our people.

In Lucas county the entire legislative and senatorial Democratic ticket is elected.

A telegram received from Columbus at 3:30 p. m. to-day states that the Democratic state committee no longer claims the election of their state ticket, but claims that their majority in the legislature on joint ballot will not be less than six, and may reach to nine.

Chairman Nash states that the Republican plurality will be 12,000 and claims that the Republicans will have a majority of three in the legislature on a joint ballot. Nash claims the election of a member from Delaware county by a plurality of 26.

Columbus, O., Nov. 3.—The result in Ohio is so close that it may require the official count to determine the result, especially on the political complexion of the legislature.

The Republicans and the Democrats are both claiming the state and the legislature with such persistence that it will require the official count at least to get one or the other to concede defeat.

Incomplete returns indicate the election of the Republican state ticket by from 10,000 to 12,000, but the result on the legislature is so close that no definite figures can be given on it.

The Democrats claim confidently a majority in both branches of the legislature, but give no figures on the number of state senators or representatives.

The Republicans claim 54 representatives and 17 senators sure, or 71 votes on joint ballot, 73 being necessary to elect a senator.

They also claim all of the 12 representatives whose counties have not been definitely heard from, and all of which are in the doubtful list.

Out of the five state senators yet to hear from they claim three, so that the result on the legislature cannot be determined till all the doubtful counties and districts are heard from.

Both sides are watching the count very carefully, especially on the legislative candidates that are in doubt.

The change from the results of last year shows that the Democrats have gained in all the counties largely, except in Cleveland. Their gains in Cincinnati and Columbus were very large.

The Republicans gained in the rural districts, but most of the changes were due to the stay-at-home vote in the rural districts, which was fully 15 per cent.

At 11:30 p. m. the Democratic managers at their state headquarters had not changed their earlier claims on the election of Chapman as governor and on securing a majority on joint ballot in the legislature for senator. No definite figures were given out and it was conceded that some doubt

ful counties and senatorial districts had not been heard from on the vote for members of the legislature.

Chairman Nash at the Republican state headquarters would not give out any statement at that hour, but his assistants, who were tabulating the returns, announced that Bushnell was elected governor, and the entire Republican state ticket was elected by from 5,000 to 10,000 plurality.

The basis of Democratic gains had been reduced since 10 p. m. from 16 to eight per precinct. The first returns came from the cities, and the Republicans claimed almost uniform gains from the rural districts.

At Republican state headquarters they were more confident of having a majority in the legislature than a decided plurality on the state ticket. They claimed 18 of the 36 senators sure, with 15 Democrats and three doubtful.

They also claimed a majority of the 109 representatives, but no definite figures were given on either the counties for representatives or the senatorial districts.

At 10 p. m. the Democratic state committee claimed the election of their state ticket by from 8,000 to 10,000 plurality and a majority of the legislature on joint ballot for United States senator.

No figures were given on the 36 state senators and 109 representatives, but it was claimed that the Republican loss of 14 members of the legislature in Hamilton county would insure Democratic control of the legislature.

The Democrats also claimed the 12 members of the legislature from Cuyahoga county, which includes Cleveland, the home of Senator Hanna.

The Republican state committee conceded the loss of Hamilton county, but claimed that there were not sufficient returns from Cleveland on which to base any estimate.

With the loss of 14 members of the legislature in Hamilton county and also of 12 members in Cuyahoga county the Republicans did not expect to carry the legislature.

Nine Majority.

Columbus, O., Nov. 3.—At 2:30 a. m. the Democrats were claiming 9 majority in the legislature on joint ballot and a majority in both branches of that body.

The Republicans at the same hour claimed only 17 of the 36 senators, which would prevent them from passing any party bills.

The Republicans, however, claim 57 of the 109 representatives. This means a Republican majority of 4 in the house and a Democratic majority of 2 in the senate.

On these claims of the Republicans they would have 2 majority on joint ballot for senator.

Hamilton County.

Cincinnati, Nov. 3.—The returns show the election of 14 fusion members of the legislature in Hamilton county by majorities of something near 3,000. The same county ticket is elected by from 3,000 to 3,500. Bushnell will carry the county by 1,000 majority.

Stark County.

Canton, O., Nov. 3.—Returns from the outlying districts of Stark county indicate decided Democratic losses over last year, more than counterbalancing Republican decrease in the cities. Indications are that Williams, Snyder and Jones, Republican legislators, are elected.

Delaware County.

Delaware, O., Nov. 3.—Twelve of the 27 precincts of this county give Bushnell 1,632; Chapman, 1,419; state senator Shryock (Rep.), 1,628; Rodgers (Rep.), 1,618; Finck (Dem.), 1,637; Miller (Dem.), 1,436. Legislators—Smith (Rep.), 1,555; Leas (Dem.), 1,550.

Lucas County.

Toledo, Nov. 3.—The vote in Toledo was: Bushnell, 10,452; Chapman, 10,013. The county vote will increase this some 900, but will not affect the result. Indications are that the Republican legislative ticket of this district is defeated by a small majority.

Payette County.

Washington C. H., O., Nov. 3.—Bushnell carries Payette county by 803. Lutz (R.), for senator, has majority of 800. Rankin (R.), for representative, has a majority of 700. Entire Republican county ticket elected by majorities of from 600 to 800.

Licking County.

Newark, O., Nov. 3.—Licking county goes Democratic from 1,200 to 1,400. Williams (Dem.) for representative is elected. Finck (Dem.) and Miller (Dem.) for senators are undoubtedly elected.

Mahoning County.

Youngstown, O., Nov. 3.—The indications at midnight were that Bushnell had carried the city by about 800 and the county by 500. The vote on the legislative ticket in the city is very close.

Richland County.

Mansfield, O., Nov. 3.—Returns are slow from the outlying townships, but Chapman has carried the county by 1,200, a Democratic gain of about 100, electing the Democratic legislative ticket.

Ross County.
Chillicothe, O., Nov. 3.—Bushnell carries Ross county by 809 majority, a gain of 200. Lutz, for state senator, and Arber, for the legislature, run a little ahead of the ticket.

At McKinley's Home.
Canton, O., Nov. 3.—The city of Canton gives Bushnell 3,421; Chapman, 3,114; Holliday, 99; Corey, 46; Dexter, 8; Watkins, 128; Richardson, 6. Bushnell's plurality, 307.

Seneca County.
Tiffin, O., Nov. 3.—Chapman has carried the county by 1,200. Democratic loss of 100. Democratic candidates for senator and representative run ahead of ticket.

Franklin County.

Columbus, O., Nov. 3.—The entire Democratic ticket was elected in Franklin county, Chapman, for governor, receiving about 1,000 plurality and leading the ticket.

Hancock County.

Findlay, O., Nov. 3.—Twenty-seven precincts in Hancock county, including all of the city of Findlay, give Bushnell 3,737 and Chapman 3,248. This is a Republican gain of 103.

Butler County.

Hamilton, O., Nov. 3.—Hamilton gives Chapman 3,164; Bushnell, 1,775. In Butler county Chapman's plurality is estimated near 3,000.

Greene County.

Xenia, O., Nov. 3.—Greene county, complete, gives Bushnell 2,200 majority, a gain of 115. Snider (Rep.), representative, is elected.

Washington County.

Marietta, O., Nov. 3.—Washington county elects entire Republican ticket. Will give Bushnell 800; senator, 700; representative, 600.

Sandusky County.

Fremont, O., Nov. 3.—Twelve out of 24 precincts in Sandusky county indicate a Democratic majority of 1,200, a gain of 101.

Huron County.

Norwalk, O., Nov. 3.—The Republican state, legislative and county tickets are elected by 1,000 plurality.

Jefferson County.

Steubenville, O., Nov. 3.—Entire Republican ticket elected in this county.

Portage County.

Kent, O., Nov. 3.—Bushnell carries Portage county by about 200.

More Money Circulates.

Berlin, Nov. 3.—The weekly statement of the Imperial Bank of Germany shows the following changes as compared with the previous account: Cash on hand, decrease 3,380,000 marks; treasury notes, decrease 580,000 marks; other securities, increase 18,120,000 marks; notes in circulation, increase 39,300,000 marks.

Quadruple Tragedy.

Worcester, Mass., Nov. 3.—Edward Hamilton, for 25 years an employee of the Worcester County Institution for Savings, shot and killed his wife and one child and fatally wounded another child, finishing by shooting himself with probable fatal results. He is supposed to have suddenly become insane.

Turf Winners.

At Lakeside—Lorraine, Arzo, Ben Frost, Bonerger, Gath, Banquo II.
At Nashville—Russell, Myrion G, Harry Duke, Trunkle, Waterlou.
At Morris Park—Swift Mas, Lady Diana, Don De Oro, Handel, Semper Ego, Wasteful, Forget.
At Lexington—J H C, Ma Angelina, Monus, Performance, Swivel.

MARKET REPORTS.

Grain and Stock Quotations For Nov. 3.
New York.

Beef—Family, \$8.00; extra mess, \$7.50; packed, \$8.50; cut meats—Picked bellies, \$8.00; pickled shoulders, \$6.00; pickled hams, \$8.50. Lard—Western steam, \$4.75; Pork—Old mess, \$9.00; 25.

Chicago.

Cattle—Beefers, \$5.00; 25; cows, and heifers, \$2.00; 4 to 6; Texas steers, \$2.75; 3 to 5; westerns, \$3.25; 4 to 6; stockers and feeders, \$2.00; 4 to 6.
Hogs—Light, \$3.50; 3 to 5; medium, \$3.00; 3 to 5; heavy, \$3.25; 3 to 5; roughs, \$2.50; 3 to 5.
Sheep and Lambs—Choice sheep, \$4.00; 4 to 6; common, \$2.00; 4 to 6; choice lambs, \$4.00; 4 to 6; exports, \$3.00; 4 to 6.
Wheat—\$1.00; Corn—32 1/2; Oats—24 1/2; Rye—50 1/2.

Buffalo.

Cattle—Butchers, \$4.25; 4 to 6; shipping, \$4.00; 4 to 6; best steers, \$3.00; 4 to 6; cows and heifers, \$3.00; 4 to 6; stockers and feeders, \$2.00; 4 to 6.
Hogs—Yorkers, \$3.00; 4 to 6; roughs, common to good, \$3.00; 4 to 6; pigs, \$3.00; 4 to 6.
Sheep and Lambs—Butcher, \$5.00; 4 to 6; good prime, \$3.00; 4 to 6; common, \$3.00; 4 to 6; 3 to 5; choice lambs, \$5.00; 4 to 6.

HOMEMADE ELECTRICITY.

Some Simple Methods by Which It May be Generated.

It has been discovered that if a steel knife and a silver fork be inserted in a large orange an electric current will be generated. If the end of the fork and the end of the knife sticking from the orange be connected with an electric measuring instrument, quite a perceptible current will be found to pass. The same kind of a battery may be made by substituting a cucumber for the orange. In fact, any acid fruit may be used.

In order to make a voltaic pile it is only necessary to procure ten or more pieces of zinc about an inch square, the same number of pieces of copper and a like number of pieces of paper. The paper should be thoroughly soaked in vinegar.

First take a piece of zinc. On it place a piece of vinegar soaked paper, then put on a piece of copper, then a piece of paper, then another zinc and then paper, and so on until all the pieces of zinc, copper and paper have been used. It is important that a piece of zinc should be on one end and a piece of copper on the other. After the pile is completed again soak the whole slightly in vinegar; then clean it off on the outside.

If the forefinger of one hand be held against one end and the forefinger of the other hand be held on the other end of the pile, quite a perceptible current will be felt. If several persons clasp hands and the persons on each end of the line touch the voltaic pile, the current will flow through the bodies of all those in position.

The thermopile is another electrical current producer that may be made in any household at a trifling expense. The electric current is generated in this case by heat, and anything from a candle to a live coal may be used to produce the heat. Take a lot of German silver and copper wire and cut it into six inch lengths. Then take a German silver length and a copper length and twist the ends together. You will have a V shaped arrangement of wire. Take another length of German silver wire and twist one end of it tightly around the copper end of the V. Continue the process until you have a long succession of what might be called W's or double V's arranged with alternate pieces of copper and German silver wire.

Now take two large curtain rings. Bend your string of wire lengths until it has assumed the position of a star and clamp it between the two curtain rings. One end of the string of wires should be copper and the other German silver. You will find when these are clamped between the curtain rings that the in-

ner points of the star form a small circle in the middle of the rings. The rings should be placed on uprights and a candle should be lighted, so that the flame will play between the inner points of the star.—New York Herald.

Among the Chins, Upper Burma.

The most common illnesses among the Chins are cholera and other bowel complaints, as is not unnatural, considering the climate, their filthy habits and their voraciousness, for if the Chins have one quality which may be counted as a virtue it is hospitality. No pretext for a feast is allowed to pass unused, whether it be a birth, a death, a marriage, a sacrifice, "the payment of a debt, the making of an agreement, the slaughter of an enemy, the shooting of a deer," and a feast "implies a drinking bout, sometimes of many days' duration." They drink a liquor named su, which is made from rice, millet or Indian corn. It is described as "a most refreshing drink after a hot march" and is said to "pull one together more quickly than any other stimulant in times of great fatigue." Its effects do not appear to be very deleterious, for the Chin usually lives to a good age, though a habitual drunkard from childhood.—Chambers' Journal.

Desolation in the Dismal Swamp.

Parties who have recently passed through the Dismal swamp say that everywhere can be seen dead animals which have either been burned or perished for lack of water. Large quantities of valuable timber, cord wood, farm fencing and peat land have been destroyed. Immense trees are burned to their roots. There is no water in the swamp, and bears, panthers, deer and other wild animals flock to Lake Drummond to slake their thirst. The lake is lower than was ever known before.—Baltimore Sun.

ELECTION RETURNS!

Elected by a Vast Majority.

The verdict of the people that Michael's Clothing and Shoe establishments is one of the most reliable concerns in the city. Honest goods at honest values. Money saved by patronizing Michael's. An immense stock of Men's and Boys' Clothing at extremely low prices. He aims to please the public. Give him a call, you will find he will suit you to the dot.

Fall Storms

Do most harm through the feet. Solid, comfortable Shoes ward off more sickness than a whole staff of doctors with barrels of medicine. They charge from \$1 to anything per visit and the result is uncertain. We charge from \$1.00 to \$4.00 a pair for Men's Shoes and from 98c to \$3.00 for Ladies' Shoes and guarantee that they will not let in any microbes, damp or cold. Strength, style and comfort for little money is what we offer.

Some Royal Titles.

The kings and queens of England were not always styled "his" or "her" majesty or after the pattern of that bestowed upon Victoria—"her most gracious majesty." Henry IV was styled "his grace." Henry VI "his most excellent grace." Edward IV, "high and mighty prince." Henry VII, "his grace and his majesty." Henry VIII, "his highness" and afterward "his majesty." Subsequently the English kings were styled "his sacred majesty." While on the subject it may not be uninteresting to give the meaning of some royal titles—king means father; Caesar and Czar, Czar, or autocrat, a contraction of Samoderzhets; duke means leader, emperor, commander, a word, master of the house, khan, provincial chief; landgrave, land reeve, margrave, border reeve; vizier, ruler, pharaoh, high of the world; shah, protector shah; elder; sultan, ruler.

LIMA PEOPLE

Interested in the Lima & Columbus Electric Railway.

Work on the Proposed Line May Begin This Fall—Backed by Plenty of Capital.

The Lima & Columbus Electric Railway, which was incorporated at Columbus, Monday, bore the names of the following persons as its incorporators: John M. Boose, Aaron Fisher, Dr. D. H. Sullivan and Jason G. Lamison, of Lima, and Smith H. Bruce, Arthur T. Wells and Judge Wilbur Horner, of Chicago. The officers of the organization have been determined upon, but have not yet been voted upon. The secretary and president will be Lima men while the general manager and treasurer will be one of the three Chicago men.

The road has an abundance of capital behind it and will certainly be built. The work will either begin this fall or some time next spring. The contract for the building of the road will be let to the Tracy & Wells Construction Company, of Chicago, and their surveyors are expected here this week.

The line will be of the standard gauge and will be built to do both freight and passenger traffic. The road will run by way of the reservoir, but it is not known yet whether it will go via Lake View or Roundhead. The greater part of the right of way has been secured and the company expects to push the proposed road to an early completion.

AARON STATES.

Rumors of His Death Untrue—Is Improving Nicely.

During the past two days a rumor has been circulated about the city and county to the effect that J. A. States, the well known ex-county commissioner, of Monroe township, had died from typhoid fever. His hosts of friends will be pleased to learn that this rumor is wholly untrue and unfounded. Mr. States has been very ill from malarial fever, but he is improving and considered out of danger.

TALES OF THE TOWN.

The Buckeye-Pipe Line Co.'s engineers are to-day making measurements for their new building at the corner of North and Elizabeth streets.

The city patrolmen are forever asking patrolman "Hob" O'Brien if he has time to carry a trunk from the European Hotel. The joke is on Harry, but he couldn't help it.

Resolutions of Respect

At a regular session of Shawnee lodge held Tuesday evening, Nov. 2, 1897, the following resolutions were unanimously adopted:

Whereas, Again from our number one has been taken, a sister, Nina Nicolas Kippen, who died and was laid away at her far away western home. Although having been absent from us for a number of years, yet she was not forgotten. Always of a happy, cheerful disposition, strange would it have been had we forgotten, for none knew her but to love her. As a tribute to our departed sister, be it

Resolved, That while we bow submissively to the will of Him who

doeth all things well, we cannot but mourn the loss of her who was indeed worthy our kindest regards.

Resolved, That the sympathy of the lodge be extended to the bereaved husband and family of our deceased sister.

Resolved, That our charter be draped in mourning for thirty days, that these resolutions be spread upon the lodge records and a copy be sent the husband and mother, and that they be published in each of the daily papers.

BETWEEN THE BUMPERS

A P. Ft. W. & C. brakeman Has His Right Hand Washed.

C. W. Welch, a P. Ft. W. & C. brakeman on east bound freight No. 72, met with a painful accident at the Main street crossing in this city about 11 o'clock last night. He was in the act of coupling the engine to the train when his first two fingers on his right hand were caught between the bumpers and crushed almost to a pulp. The injured man was taken to the baggage room and Drs. Hiner and Bover were summoned. It was found necessary to amputate both fingers that were injured.

Brakeman Krueh took the place of Welch and continued his run. Welch returned to his home at Ft. Wayne this morning on the early morning train.

GAS EXPLOSION

Does Considerable Damage to a Building and Injures Two Men

Accident Occurs at the Old Lockhead Grocery—Messrs. Kelly and Fenwick, the Present Proprietors, the Victims

Shortly after 8 o'clock last night an explosion of natural gas occurred in the cellar under Kelly & Fenwick's grocery, at St. Johns avenue and Vine street, doing considerable damage to the building and severely injuring both of the proprietors. The building is owned by F. M. Lockhead, who recently sold his grocery business to Messrs. Kelly & Fenwick. During the evening Mr. Lockhead entered the store and descended to the cellar to turn a stop-cock in a water pipe and in some manner he opened a valve that let the natural gas into the cellar. He left the place without discovering the fact that gas was accumulating there and a few minutes later the two proprietors started down the stairway leading into the cellar, one of them carrying a lighted lamp. The natural gas ignited from the lamp and an explosion which almost lifted the building off its foundations occurred. The lamp was shattered in Mr. Fenwick's hand and the kerosene saturated some of his clothing and became ignited. Dazed and burned, the two men rushed into the street and used mud and water to extinguish the fire about Mr. Fenwick's clothing. Some inflammable articles in the grocery had become ignited but these flames were also extinguished before any additional damage was done.

The explosion did considerable damage to the building. Ceilings above the first and second floors were shattered, and the cellar is the scene of quite a wreck, but fortunately there was not much beneath the store room to suffer damage. The business room suffered the greatest damage. Groceries were knocked from the shelves and counters and piled in wreck and confusion and all but one of the panes of glass in the show window were shattered.

The injured men were taken to their home, at 848 St. Johns avenue, and Drs. Terwilliger and Bower were called. Both men had their hands and faces badly burned, and while Mr. Fenwick's burns are much more severe than those sustained by Mr. Kelly, the latter suffers more from the shock.

When he turned on the gas Mr. Lockhead intended to turn on the city water, but made the mistake on account of the darkness. The gas pipe was burst, and thus the escape of gas into the cellar is accounted for.

Lost, Strayed or Stolen.

One young man; dark complexioned, black moustache, lame in left hind leg. Was last seen at opera house, Lima, about 11:30 o'clock. The supposition is that he ran away with Hanna's Hamilton county majority, and he is reported to be hiding in the woods near West Cairo. A liberal reward will be paid by the undersigned for his return to West Cairo.

B. N. HARPSTER

Dig down to the cause of your sickness. If you want to get well and stay well. Most likely it's indigestion. The irritating poisons of fermenting, putrid food, left in the stomach by indigestion, cause headache, neuralgia, nervousness, dizziness, stomachache, nausea, irritability, and all the other well-known symptoms of indigestion.

They also cause many pains and disorders which are often laid to other causes and hence are not easily cured. But as soon as the poisons are removed all these symptoms and disorders disappear, because there is nothing left to cause them. Nothing succeeds in this like Shaker Digestive Cordial, because it prevents the undigested food from fermenting in the stomach and helps the stomach to digest its food.

Sold by druggists, price 10 cents to \$1.00 per bottle.

A Belle of Napoleon.

Gottlieb Kirchner, who recently died at North Woodside, in South Australia, 90 years old, was a personal friend of the great Napoleon. When the emperor was returning from the disastrous Russian invasion, he passed through Kirchner's native village. His coach had been seriously damaged, so that it had to be repaired. The work was entrusted to Kirchner's father, the village blacksmith. The son, then a lad of 5 years, was so frightened at the soldiers that he fled crying to his mother. Napoleon, who had seen him, took him up in his arms to quiet him, set him on his shoulder and let him play with the cockade in his chapeau. When he departed, he took the cockade off and gave it to the little Kirchner, in whose family it was long cherished as a relic. Till his last years Kirchner often declared that he remembered the whole scene vividly.

THE COLUMBIA,

SPECIAL AGENCY, LIMA, O.

The Largest Manufacturer of Artificial Legs in the World, and also the Largest Manufacturer of Artificial Arms in the World without any exceptions.

MARKS' PATENT ARTIFICIAL LIMBS

WITH RUBBER HANDS AND FEET

Are natural in action, noiseless in motion, durable in construction and the most comfortable to wear.

To A. A. MARKS:

DEAR SIR: I was a professional tight rope walker and acrobat before I lost my leg, and I do not allow the loss of a leg to compel me to seek another occupation. With your patent artificial leg, I can walk a tight rope nearly as well as I ever could. I feel safe and sure on my rubber foot, no matter where I place it. I consider your invention of the rubber foot the most valuable and important to persons who have lost their natural limbs.

Respectfully yours,
Prof. F. E. JACOBY,
Waterbury, Conn.

Over 10,000 in use scattered in all parts of the world. Eminent surgeons and competent judges commend the rubber foot and hand for their many advantages.

Received 26 Awards, including Highest Award at the World's Columbian Exposition.

In dorsed and purchased by the U. S. Government and many foreign governments.

A treatise containing 64 pages, with 20 illustrations, sent free. Also a formula for taking measurements by which limbs can be made and sent to all parts of the world with 21 guaranteed.

Address,

A. A. MARKS,

701 Broadway New York City.

Established 44 Years.

Notes—The above cut was made from a photograph of Prof. Jacoby while performing on a tight rope. He is balancing entirely on his artificial leg; his natural foot is off the rope and is in the act of passing forward to take the next step.

SUDDEN DEATH.

Edward Gallagher, an Aged Resident, a Victim of Apoplexy.

Expired at 3 O'clock this Morning—Funeral Friday.

Edward Gallagher, of 631 North Union street, died very suddenly at 3 o'clock this morning from apoplexy. Upon retiring last night the deceased was in his usual health, but about midnight the family was aroused by his heavy breathing. A physician was summoned, but he did not regain consciousness, death claiming him at the above stated hour.

Mr. Gallagher had been a resident of this city the greater part of his life and has always been a quiet and inoffensive citizen. His age, at the time of his death, was about 80 years. An aged wife, four sons and three daughters survive him. All the children reside in this city except one son, Patrick, who lives in Columbus. The funeral services will be held Friday morning, at St. Rose church, and the interment will be at Gethsemani.

Down They Go.

DIED IN CHICAGO.

Home of Mr. and Mrs. Joseph Korn Saddened By Death.

The home of Mr. and Mrs. Joseph Korn of west McKibben street, was saddened this morning upon receipt of a telegram at 10 o'clock telling them of the death of their daughter, Miss Janie Korn, for the past year a resident of Chicago.

Miss Korn had been a sufferer from inflammatory rheumatism for a long time past, but no serious results were anticipated by her relatives here and the news of her death this morning was a sad blow to her parents, sister and brother, as well as to her numerous friends in this city.

Her remains will be brought here for burial, but the time of arrival can not at this time be stated.

Fresh spareribs, backbones and tenderloins at Shutts' market, 433 north Main St. 14tf

Have You Kidney Trouble,
Have You Bladder Trouble,
Have You Bright's Disease
Have You Diabetes?

TAKE

"SAN-JAK"

IT IS THE GREATEST KIDNEY, NERVE, BLOOD AND CATARRH REMEDY ON EARTH. IT CURES BACKACHE IN 24 HOURS AND A WEAK BACK BECOMES STRONG. ONE DOSE AT NIGHT GIVES REST AND AVOIDS NIGHT HORRORS AND DREAMS.

Read from a reliable physician:

Dr. E. S. Burnham:

"DEAR DOCTOR:—I beg by this note to return to you my sincere thanks and gratefully acknowledge for the various benefits of SAN-JAK, which you were kind and generous enough to send to me during my late illness, of inflammation of the bladder."

SAN-JAK possesses wonderful properties, its soothing effect upon inflamed mucous surfaces is indeed remarkable, it won my confidence after a few doses, and deepened my faith and strengthened my opinion of its transcendent merits."

I found relief from the keen and insupportable anguish caused by the tenacious cystitis, the most painful and disagreeable feature of bladder trouble."

Your SAN-JAK should be in every drug store in the country, and its wonderful properties and curative powers should be known to every physician in this grand republic. Another feature in SAN-JAK is the agreeable and pleasant taste, very much like Angelica wine. When one suffers for weeks and swallows infusions and fluid extracts hourly which are nauseous, repulsive and abominable to take, he can turn with joy, gratitude, and smiling welcome to SAN-JAK as a messenger of relief, and a pleasant elixir to have within call."

Respectfully,

ANDREW J. PARK, M. D.

Would Not Part With His Dog.

A family from Arkansas, bound for

east Tennessee, passed through Louis-

ville recently in an overdrawn wagon drawn

by two horses that excited the pity of

all who saw them, for they were mere

skin and bones. Under the horse axle, at

the very heels of the poor beasts, walked

a hound in no better condition. For

every man in his train was plainly visi-

ble. A citizen, who was the head of the

outfit, a dollar for the dog, but he re-

plied: "Stranger, we are in mighty

hard luck, but Watch has stood by me

and mine in all our tribulations, and

while your offer is a tempting one I

haven't the heart to go back on my faith-

ful four-footed friend." The citizen

sawed him the dollar, and dog and wag-

on moved out of town together.—Har-

rodsburg (Ky.) Democrat.

TAMMANY GETS THERE

Van Wyck Will Be First Mayor of Greater New York.

PLURALITY OVERWHELMING

George cut a sorry figure and Gleason was almost lost, while Low ran away from Tracy—Keopuh means carry the state.

New York, Nov. 3.—From the moment the count of ballots began it was plainly evident that Van Wyck, Tammany candidate for mayor of Greater New York, was elected by an overwhelming plurality, if not a clear majority.

The first bulletin issued gave assurance to the Tammanites, and each succeeding one made assurance doubly sure until finally indications pointed to a plurality approximating 100,000, with Low (Citizens') second, Tracy (Rep.) third, with George (Jeffersonian or silver) and Gleason (Ind.) hardly recognized.

At midnight 770 of the 883 election districts in Greater New York had been counted, showing Van Wyck (Tammany Democrat), 123,733; Low (Citizens' Union), 65,771; Tracy (Rep.), 48,787; George (Jeffersonian Democrat), 10,617; Van Wyck's plurality, 57,962.

Van Wyck at this time was shown to have polled as large a vote as both Tracy and Low combined, while the George vote, which a week ago was regarded with more or less apprehension and was expected to be anywhere from 65,000 to 100,000, has fallen to almost infinitesimal proportions.

It is estimated upon the basis of the ballots already counted that Van Wyck's total vote will be from 146,000 to 148,000 in Manhattan and Bronx, 73,000 in the borough of Brooklyn, 8,500 in Queens and 1,900 in Richmond, or approximately 231,000 votes in Greater New York. Low's vote will be not far from 152,000; Tracy's, 100,000, and George's, 18,000. The total, 499,000, will not be materially altered either way.

Van Wyck's Plurality.

New York, Nov. 3.—Following is the grand total of the votes received by the three leading candidates for mayor in Greater New York, complete returns having been received from all the districts: Van Wyck, 235,181; Low, 148,513; Tracy, 101,823. Van Wyck's plurality over Low 86,668.

DEFEATS McLEAN.

That Is Tom L. Johnson's Opinion of the Result in Ohio.

New York, Nov. 3.—Former Congressman Tom L. Johnson of Ohio said: "As to the result in Ohio, my opinion is that it defeats McLean. At least 25 Democrats elected to the legislature would be against him, regardless of the caucus. They have been pledged to vote against him and that defeats him."

"As to what brought about the result, it is a swing of the pendulum back to Democratic victory. It has been a good deal accelerated by Foraker's opposition to Hanna."

"But for the fact that the people did not understand that a Democratic legislature would not elect McLean, the Democratic majority would be much larger, so what we have lost by dreading of McLean's possible election, we have gained by the disaffection among the Republicans, due to Foraker's bitter opposition to Hanna."

Result in South Dakota.

Sioux Falls, S. D., Nov. 3.—At midnight the indications were that the Republicans had won in South Dakota. Smith (Rep.) is elected judge in the First district by a close vote. In the Second Jones (Rep.) is probably elected by 400 majority, overcoming an adverse majority in 1896 of 1,050. Smith (Rep.) in the Fourth district is elected. The election of Campbell (Rep.) in the Fifth district is claimed by 1,200 majority. Gaffey (Rep.) is elected in the Sixth. The result in the Third is in doubt. The Populists have probably carried one district, the Eighth, and Wilson (Rep.) is leading in the Seventh.

Democratic Mayor Elected.

Detroit, Nov. 3.—The municipal election resulted in a decisive victory for the head of the Democratic ticket, Mayor Maybury. The official returns up to midnight, with but three precincts lacking, gave Maybury 2,100 plurality over Black (Rep.). William B. Thompson (Dem.) is elected treasurer over Grunow (Rep.) by something like 4,000. Robert W. Webb (Dem.) is also elected a justice of the peace. The Republicans elect John A. Schmidt city clerk by something over 2,000, and also elect Felix A. Lemke as justice, and five estimators at large.

In Philadelphia.

Philadelphia, Nov. 3.—The complete returns from all the wards in Philadelphia show a plurality of 71,019 for Beaman (Rep.) for state treasurer. The rest of the Republican ticket has approximately the same plurality. Swallow's vote is 15,556. The vote for Thompson (Ind. Rep.) is slightly over 4,000. The majority in favor of the \$12,000,000 loan is 15,694. In 1895 the Republican plurality was 74,518 and last year McKinley had 112,139.

Close Results in Maryland.

Baltimore, Nov. 3.—The Republicans have elected their entire municipal ticket in this city and will control both branches of the city council. They have also carried all three of the Baltimore legislative districts and the seat

in the United States senate will be held by Arthur P. Gorman, whose name in the primary so far has received more than 100,000 votes. The Republicans are confident that they will carry a majority of the electoral college.

Result in Massachusetts.

Boston, Nov. 3.—Results from all but 115 of the 325 wards and 305 out of 521 towns and cities a Republican plurality in Massachusetts of about 85,000. The total vote for Wolcott, the Republican candidate, will be about 168,000, for Williams (Dem.), 78,000, and Everett (N. D.) about 12,000. The legislature remains practically unchanged.

Democrats Carry Buffalo.

Buffalo, Nov. 3.—Dr. Conrad Diehl (Dem.) has been elected mayor by a majority of at least 6,000. The Democrats also elect their city ticket. They elect six councilmen, making that body solidly Democratic. Twenty-five aldermen were elected. Estimates made on city returns elect 18 Democrats and 7 Republicans, exactly reversing the present board.

Swept by Republicans.

Port Huron, Mich., Nov. 3.—Every Republican candidate for city office was elected by safe majorities. Stevens (Rep.), for mayor, has 248 plurality over Wellman (Dem.). Wellman had majorities in only three wards. Eight Republicans and one Democratic alderman are elected.

Major Todd Defeated.

Louisville, Nov. 3.—A conservative estimate at 11 o'clock places the majority of Charles P. Weaver, Democratic candidate for mayor, over George D. Todd, the present incumbent, at from 3,000 to 3,500. The entire Democratic ticket is undoubtedly elected with him.

Silver Democrat Leads.

Louisville, Nov. 3.—The returns from the state are meagre and unofficial. These show that Shakerford, Silver Democratic nominee for clerk of the court of appeals, is leading Bailey (Rep.). The National Democratic vote was very light.

Wallace in the Lead.

New York, Nov. 3.—Estimates made on the basis of returns received up to 11 p. m. in 24 counties out of 67 counties in the state (outside of Greater New York) indicate a plurality of 28,018 for Wallace (Rep.) for judge.

Clean Sweep by Democrats.

Richmond, Nov. 3.—It is estimated that the Democratic state ticket is elected by about 55,000 or 60,000 majority, and that the Democrats have two-thirds of the house of delegates and four-fifths of the senate.

Republicans Claim Iowa.

Des Moines, Nov. 3.—Chairman McMillan of the Republican committee claims the state by from 17,000 to 30,000 plurality. Chairman Walsh makes no claims, but neither does he make any concessions.

Mayor De Witt.

Binghamton, N. Y., Nov. 3.—Jerome De Witt (Dem.) was elected mayor of Binghamton over George E. Green (Rep.) by over 500 majority. Eight Democratic aldermen out of 13 are elected.

Carried by Wolcott.

Boston, Nov. 3.—For the second time in two years this city, ordinarily strongly Democratic, gave a substantial majority to Roger Wolcott, the Republican candidate for governor.

Sticks to Fusion.

Lincoln, Neb., Nov. 3.—Nebraska renewed her allegiance to fusion by electing the three candidates on that ticket by pluralities ranging from 10,000 to 20,000.

Democrats Have the House.

New York, Nov. 3.—Indications are that the Democrats have a small majority of the members of the state assembly.

Higgins For Mayor.

Oswego, N. Y., Nov. 3.—John Higgins (Rep.) is elected mayor by 125 majority in a vote of 5,000.

New Job For Eckels.

Chicago, Nov. 3.—James H. Eckels, controller of the currency for the United States, has been elected president of the Commercial National bank of Chicago. Mr. Eckels will enter upon his new duties Jan. 1, 1898. The Commercial is one of the largest banking institutions of this city, its deposits amounting to nearly \$10,000,000.

The Presidential Party.

Canton, O., Nov. 3.—After dinner the presidential party received the early returns at the Day residence, and at 9 o'clock was driven to the home of Mother McKinley. At 11 o'clock the party drove to the special train in waiting at the depot. All were greatly interested in the returns and none retired until a late hour.

Purchased by Englishmen.

Chicago, Nov. 3.—An English syndicate has purchased Frisco Phosphate's gold mines in Alaska for \$1,000,000 for three claims—No. 21 on Bear creek and two rich claims on Eldorado. The syndicate pays \$200,000 down and the balance, \$800,000 at the end of one year.

General Longstreet Installed.

Washington, Nov. 3.—General James S. Longstreet took the oath of office as commissioner of railroads and began his new duties, succeeding General Wade Hampton.

The Weather.

For Ohio Fair, brisk northwesterly winds.
For Indiana Warmer, northerly winds, becoming variable.
For West Virginia Fair, slowly rising temperature; northerly winds, becoming variable.

FARM FIELD AND GARDEN

FARM HORSES.

Notes Concerning Their Feeding and Management Horse-raising.

Among other subjects discussed in the special farmers' institute at the Iowa Homestead is the feeding and management of horses. Following are in brief the more important points emphasized in the discussion:

A great deal is expected of horses and very little attention is devoted to their care by some farmers. There is quite a difference in the manner of feeding, but all agree that corn, oats and good hay are best to feed horses. One writer goes to the barn in the morning and first puts in any waste hay which has been thrown over, and has the horses eat that before he gives them grain. This writer finds that 25 to 30 pounds of solid food are necessary for a 1,000 pound horse. Colts and horses not accustomed to work are often fed grain whenever the work horses are fed, which is not considered economical or the best plan. They should be fed well consistent to growth rather than fat. One man has brood mares 6 years old that know nothing about grain. Most of the advisers received agree that a good pasture is necessary for horses in summer, and in winter they need exercise which may be in pasture or stalkfields. Whatever feed is employed should be given with regularity, as well as water. One writer says horses are kept too fat, except for selling, while others agree that many horses are too poor. Dusty hay should not be given horses, and it is also stated that it should not be thrown down in front of them. They should be well bedded and have perfect knowledge of the currycomb. One writer runs his oats for horses through the fan. Overchecks are condemned. Some feed and water while warm, and others condemn this practice. Sores of all kinds should be guarded against, and little exercise can be given for permitting sores to come on horses that work regularly.

A great deal of injury is done to work teams by getting in too much of a hurry in the spring of the year. Idle horses are better off in the pasture than in the barn. One writer says horses and cows should not be kept in the same barn. He knows this is wrong, for he has found it out from practice. Another has a separate pasture near the barn for his horses, so they can be turned from the barn to the pasture and can get under shelter when it rains.

All farmers should have a better knowledge of the stomach of the horse. Its size is overestimated on account of the comparison liable to be made between it and that of the cow. Farmers are better acquainted with the stomach of the cow than with that of the horse.

It is the universal opinion that horses on the farm are better off by reason of no shoes than to be kept well shod. Only horses that are used on the roads should be kept shod. One writer takes the position that they need no shoes at any time. There is some difference of opinion about feeding hay. Some believe horses should have all the hay they will eat and others go to the other extreme and feed but once a day, and that at noon.

Handling Corn Fodder.

Handling corn fodder is tedious work at best, but there are many ways of handling it, the difference being whether it is cut by machine or by hand, whether it is husked or not, whether it is to be stacked or put in barn or fed out of the field. A contributor to The Iowa Homestead gives his methods. He writes:

My preference is to put it in the barn and make calculations accordingly. Corn fodder should be cut before it gets dry on the stalk, and it will be less trouble to handle if put up with the assistance of a corn cutting jack. After the corn is cut and ready to be put in barn I use a long boat. Five boards 10 or 12 inches wide and 16 feet long answer all right. Nail them together side by side and hitch three horses to it. I use five ropes 12 feet long. Tie a ring to the end of each rope, making it convenient to the family. All the rope will hold makes a fur for a horse to pull up into the barn by means of a hay fork. Three bundles are a sufficient load for three horses. Remove the rope as soon as landed in the barn, lay the corn fodder in layers, and when winter comes husk your corn and cut the fodder for horses and cattle, and they eat it sleek and clean or nearly so. The best results are always attained by cutting up the fodder or by shredding.

Storing Vegetables.

Outcrop or cave storage as well as pit storage is good. The ideal method of storage is that which will not wilt vegetables, but keep them in as natural condition as possible. Where there are hilly elevations vegetables are best piled for winter in a protected place where the ground will not freeze too deep. Pits should not be too large for potatoes, beets, carrots or turnips. They should be long and in sections so that small quantities of the vegetables can be occasionally removed to a more convenient place in the cellar. Additional suggestions made in The Iowa Homestead are as follows:

Cabbage is hard to keep, yet it can be done, under good management, in several ways. Sink barrels in the ground their entire depth. Then take the cabbages, with their stems and outer leaves entire, and wrap them in several thicknesses of newspaper and lay them in the barrels. Cover with loose hay and put a board over to keep the rain out. After it becomes late and freezes up put on a covering of earth. This should be mulched so as not to let the frost in. In the winter a barrel can be uncovered and partly emptied and then covered again until later.

FARM FIELD AND GARDEN

CORN STOVER.

Its Nutritive Value, Preparation of Stover For Feeding.

Farmers differ widely as to the feeding value of corn stover. Some have claimed that it possesses but little nutritive value, while many others consider it to have at least half the feeding value of hay. As I. B. Lindsey of the Massachusetts Hatch experiment station explains, its true feeding value depends to a great extent upon its mechanical condition, the quantity fed daily and its proper combination with other feeding stuffs. When stover is fed whole, the average animal eats the leaves, husks and tops and refuses the stalks. It is only necessary to observe the farmer's manure pile to know the value he places upon his stover. To show the increased consumption caused by cutting corn stover, the Wisconsin experiment station conducted three feeding experiments with four milk cows. The cows were fed a grain ration and in addition all they would eat of cut or uncut stover. The corn was cut into inch lengths in a feed cutter, which also shredded the coarse stalks. The first two experiments were conducted with Pride of the North stover, a medium dent variety, and the last with Stowell Evergreen, planted thickly. It was found that cutting saved 36 per cent of the fodder in the first, 31 per cent in the second and 9 per cent in the third experiment. It is probably a conservative statement that farmers lose fully one-third of their stover by feeding it whole.

Machines are in use which husk the corn and shred the stover at the same time. Many have pronounced them economical, while some have questioned the advantages to be derived from them. Professor Nourse of the Virginia experiment station, who has recently given one of these machines a practical trial, reports very satisfactory results. Any machine that will thoroughly shred the fodder is preferable to one that simply cuts it.

Fodder that is shredded immediately on being drawn from the field is often so moist as to mold when thrown in large piles and proves worthless for feeding. The New Jersey experiment station has reported serious trouble from this cause. On the other hand, if the fodder is stored for a few months previous to shredding the danger is largely if not entirely avoided. This involves considerable extra expense, however, which sometimes renders it of doubtful economy. The fact remains that stover cannot be shredded in any large quantity when moist without great danger of its rapidly becoming unfit for feeding. Farmers having power cutters of their own can shred at one time sufficient for a week's use without danger of its spoiling.

Use of Bisulphide of Carbon.

It is quite common to use bisulphide of carbon for the protection of all grains liable to attacks from weevil in storage. It becomes an important question, therefore, to know what effect, if any, carbon bisulphide has on the germinating powers of the grain, and to ascertain this the division of botany of the department of agriculture has made a large number of experiments with 33 different varieties of grain and vegetables, 5 of cotton, 2 of peas, 3 of Indian corn, 2 of Kaffir corn, 2 of barley, 2 of wheat and 1 of oats. The general conclusion from the experiments was that there was an appreciable difference in the vitality of wheat, corn, barley or rye between seed that had been treated and that which was untreated, when the seed was treated in bulk for 24 hours at the rate of 1 pound of the chemical to 100 bushels of the grain. Generally the seeds of cotton, peas, beans, buckwheat, oats and the cabbage family and cowpeas will endure very severe treatment with the fumes of carbon bisulphide without injury to their germination to any appreciable extent. On the other hand, corn, wheat, rye and other crops belonging to the grass family, except Kaffir corn and oats, should be treated with caution, as serious deterioration in vitality is likely to result from excessive exposure to the gas.

The Potato Outlook.

The possibility and probability of potato imports of considerable magnitude the coming fall and winter form an interesting subject of speculation. The American Agriculturist reports that "prices are now close to the importing point, and it will be remembered that in years of short domestic crops not alone are a good many tubers brought in from the lower Canadian provinces, but also from Scotland and occasionally from the north of Europe. It is far from certain that these countries will have any to spare the present season. During the seven months ended July 31, which included the period for importing Peruvian stock, a total of 187,000 bushels of foreign potatoes came into this country against 103,000 a year ago. Exports for this period were respectively 402,000 and 299,000 bushels."

Feeding New Out.

An expert feed farmer once told us that when he was obliged to begin feeding new oats while still moist he had moved injury to his horses. By giving a small bulk with them of wheat bran, the bran is itself nutritious, the amount of oats may be diminished to the extent that the bran by weight is substituted. As the oats dry out the proportion of bran may be decreased until none is given. Yet in seasons when oats were dear we have known bran and corn meal used as a substitute for feeding to working horses.—American Cultivator.

Means to the End

"I have no illusions," said a young man who was stage struck, "I expect to begin at the bottom, and work up. I see the years before me of work, failure and disappointment. But, in the end, steady, fast ambition and unceasing endeavor will triumph, and I shall reach the zenith of my fame and be then, at last, the foremost tragedian of my time."

"And what then?" queried the First Old Man.

"And then," exclaimed the aspirant for Thespian honors—his form erect, his eyes flashing—"and then I will enter vaudeville!"—Puck.

A KIDNEY DISEASE.

Given Up by Four Doctors

BEAVER DAM, O., Aug. 27th, 1895.

My daughter, after being treated by four doctors, and being given up for lost, a neighbor recommended Foley's Kidney Cure. To-day she is able to walk several miles without fatigue. I feel we would have lost her if it was not for your medicine. Respectfully,

Mrs. J. M. BARTLEY.

H. F. Vorkamp, n. e. cor. Main and North streets.

His Pertinent Question.

He had taken his punishment like a little man, and for some time afterwards had been buried in thought.

"Mamma," he said finally.

"Well, Willie?"

"Do you really speak me because you love me so much?"

"That's the reason I punish you, Willie."

"And don't you love papa at all?"

—Chicago Post.

Baby Screamed One Hour. One Dose Brought Smiles.

MARSHALL, O., Nov. 6, '96.—Hand Medicine Co.—"I cheerfully bear witness as to the virtues of Dr. Hand's Colic Cure. Our baby, now nearly four months old, suffered much from colic. After having screamed with pain for over an hour we came upon Dr. Hand's Colic Cure and gave her a dose of it. In five minutes after taking she is all smiles, and at night we all sleep. Mrs. F. L. Traphagen, 46 W. Charles St. All druggists etc.

Man's Superiority.

The fast express went by after the manner of fast express.

"Great invention, ain't it?" asked Everett Wreath, who was sitting on the fence.

"Some great," assented Dismal Dawson, "but man is greater. Did you know that there engine has to have 12 gallons of water to go a mile?"—Indianapolis Journal.

DEMOCRATS ARE WINNERS

In Every Part of Good Old Allen.

NEARLY 1,700 MAJORITY

Given the Highest Man on the Democratic County Ticket.

EVERY MAN ON IT ELECTED

By a Vote Which is Very Gratifying to the Democracy—A Light Vote is Pelled All Over the County—Net Democratic Gains in Many Precincts—An Excellent Ticket Elected—Republican Losses in Almost Every Precinct in the County—The Populists, Gold Democrats and Prohibs Cast But Few Votes—The Hall-Lewis Campaign a Disastrous One for the Republicans.

The election in Allen county passed off quietly in all the precincts. A light vote was polled everywhere, the total vote on the head of the ticket being 8,378, against 11,303 in 1896. The Democrats make a net gain in almost every precinct in the county and carry the state ticket by a plurality of 1,260. All the candidates on the county ticket run ahead of the state ticket, some of them leading Bushnell by nearly 400.

The total vote cast in the county is as follows: For Governor: Horace L. Chapman, D., 4,819; Asa Bushnell, R., 3,559—Chapman's plurality, 1,260. For Lieutenant Governor: M. D. Shaw, D., 4,843; A. W. Jones, R., 3,505—Shaw's plurality, 1,338. Representatives: C. H. Adkins, D., 4,967; A. M. Johnston, R., 3,339—Adkins' plurality, 1,628. Sheriff: E. H. Bogart, D., 4,973; John Baker, R., 3,315—Bogart's plurality, 1,658. Commissioner: G. D. Kanawli, D., 4,787; O. H. Bowers, R., 3,521—Kanawli's plurality, 1,266. Treasurer: A. G. Lutz, D., 4,929; Abram Early, R., 3,368—Lutz's plurality, 1,561. Surveyor: J. O. Cronley, D., 4,885; George Taylor, R., 3,439—Cronley's plurality, 1,446. Infirmary Director: Isaac B. Stemen, D., 4,938; E. F. Davis, R., 3,412—Stemen's plurality, 1,526. Coroner: E. G. Burton, 4,946; H. O. Stemen, 3,337—Burton's plurality, 1,609.

The vote by precincts is as follows:

FIRST WARD—PRECINCT A.
Governor: Chapman 211, Bushnell 60.
State Senator: William G. Brorain 214, William E. Decker 214, Charles Younger 57, Charles A. Seiders 57.
Representative: C. H. Adkins 214, A. M. Johnston 56.
Sheriff: Bogart 213, Baker 57.
Commissioner: Kanawli 216, Bowers 55.
Treasurer: Lutz 214, Early 56.
Surveyor: Cronley 216, Taylor 54.
Infirmary Director: Stemen 210, Davis 60.
Coroner: Burton 212, Stemen 58.
Populist 3, Liberty 11, National Democrat 1.

PRECINCT B.
Governor: Chapman 262, Bushnell 51.
State Senators: Brorain 263, Decker 262, Younger 46, Seiders 44.
Representative: Adkins 266, Johnston 43.
Sheriff: Bogart 260, Baker 44.
Commissioner: Kanawli 269, Bowers 43.
Treasurer: Lutz 266, Early 44.
Surveyor: Cronley 267, Taylor 44.
Infirmary Director: Stemen 262, Davis 46.

Coroner: Burton 262, Stemen 44.
People's party 4.

SECOND WARD.
Governor: Chapman 185, Bushnell 143.
State Senators: Brorain 194, Decker 194, Younger 132, Seiders 131.
Representative: Adkins 201, Johnston 128.
Sheriff: Bogart 202, Baker 122.
Commissioner: Kanawli 194, Bowers 131.
Treasurer: Lutz 197, Early 137.
Surveyor: Cronley 186, Taylor 136.
Infirmary Director: Stemen 191, Davis 134.
Coroner: Burton 193, Stemen 131.
People's party 1, Socialist 1, Liberty 2.

THIRD WARD, PRECINCT A.
Governor: Chapman 174, Bushnell 200.
Senators: Brorain 188, Decker 187, Younger 181, Seiders 182.
Representative: Adkins 191, Johnston 177.
Sheriff: Bogart 187, Baker 185.
Commissioner: Kanawli 186, Bowers 185.
Treasurer: Lutz 192, Early 182.
Surveyor: Cronley 182, Taylor 192.
Infirmary Director: Stemen 178, Davis 193.
Coroner: Burton 188, Stemen 181.
People's party 4, Liberty 3, National Democrat 2, Socialist 1, Negro Protective 1, Prohibition 1.

PRECINCT B.
Governor: Chapman 97, Bushnell 113.
Senators: Brorain 95, Decker 95, Younger 113, Seiders 113.
Representative: Adkins 96, Johnston 112.
Sheriff: Bogart 96, Baker 113.
Commissioner: Kanawli 92, Bowers 115.
Treasurer: Lutz 92, Early 115.
Surveyor: Cronley 94, Taylor 113.
Infirmary Director: Stemen 95, Davis 113.
Coroner: Burton 99, Stemen 109.
People's party 3, Prohibition 1, Socialist 1, National Democrat 2.

FOURTH WARD—PRECINCT A.
Governor: Chapman 99, Bushnell 111.
Senators: Brorain 101, Decker 101, Younger 97, Seiders 97.
Representative: Adkins 97, Johnston 114.
Sheriff: Bogart 102, Baker 108.
Commissioner: Kanawli 100, Bowers 110.
Treasurer: Lutz 101, Early 110.
Surveyor: Cronley 100, Taylor 111.
Infirmary Director: Stemen 99, Davis 112.
Coroner: Burton 102, Stemen 109.
Scattering votes cast: People's 1, Liberty 7, Prohibition 1, Socialist, Labor 1.

PRECINCT B.
Governor: Chapman 202, Bushnell 135.
State Senators: Brorain 230, Decker 230, Younger 145, Seiders 145.
Representative: Adkins 208, Johnston 136.
Sheriff: Bogart 204, Baker 134.
Commissioner: Kanawli 202, Bowers 134.
Treasurer: Lutz 201, Early 133.
Surveyor: Cronley 206, Taylor 131.
Infirmary Director: Stemen 191, Davis 131.
Coroner: Burton 202, Stemen 131.
Scattering votes: 1 Prohibition, 1 People's, Liberty 1.

PRECINCT C.
Governor: Chapman 124, Bushnell 189.
State Senator: Brorain 128, Decker 128, Younger 186, Seiders 187.
Representative: Adkins 132, Johnston 178.
Sheriff: Bogart 132, Baker 178.
Commissioner: Kanawli 123, Bowers 187.
Treasurer: Lutz 128, Early 183.
Surveyor: Cronley 131, Taylor 184.
Infirmary Director: Stemen 126, Davis 185.
Coroner: Burton 131, Stemen 180.

FIFTH WARD.
Governor: Chapman 210, Bushnell 219.
Senators: Brorain 205, Decker 205, Younger 224, Seiders 224.

BRAKEMAN INJURED

Walked Off the End of a Moving Cut of Cars.

NARROWLY ESCAPED DEATH

Conductor Welsh Resigns His Position With the L. E. & W. and Accepts a Similar One on the D. & L. N.

Brakeman Charles Durbin, of the L. E. & W., had a very narrow escape from death about 10:30 o'clock last night by walking off the end of a moving cut of cars while assisting in doing some switching at Bluffton. Durbin was braking for conductor Mike Densen on a west bound through freight train. The crew had orders to "pick up" a couple of cars at Bluffton and upon arriving there Durbin started over the top of the train to cut off the engine and cars that had air hose coupled up from the remainder of the train. The pin had already been pulled, however, and as he was in the act of jumping from the top of a Lehigh Valley box car to the next one the two parted and he slipped into space and fell on to the track below. Fortunately an instant before he fell, a signal was given the engineer to stop and the air was applied and the cut off of which he had fallen was stopped just as the wheels were almost upon him. His back was badly sprained and he was severely bruised, but his injuries are not of a serious nature. He arrived here at 11:45 o'clock.

CONDUCTOR WELSH RESIGNS.

Conductor William Welsh, one of the oldest freight conductors in the service of the L. E. & W. on the Sandusky division, resigned his position yesterday afternoon and immediately accepted a position as a freight conductor on the D. & L. N., on which road he took out a train this morning. Mr. Welsh resigned in preference to serving a lay off of twenty days which Supt. Kramer had given him as punishment for carrying men on a freight train in charge of stock, an offense similar to the one for which conductor A. M. Johnston was dismissed from the service of the company.

OLD C. H. & D. DEPOT DESTROYED.

The old building located at the junction of the C. H. & D. and Panhandle railroads at Piqua, which

The Mocal Medicine
Is the Mocal Medicine.

The only medal awarded to Sarsaparilla at the World's Fair, 1893, at Chicago, was awarded to

Ayer's Sarsaparilla.

served for many years as a depot, was totally destroyed by fire Sunday morning. The origin of the fire is supposed to have been due to sparks from a passing engine, as two freight trains went over the Panhandle and one over the C. H. & D. but a short time before the fire was discovered. It is not probable that the building will ever be rebuilt.

NOTES.

C. H. & D. engine No. 21 is in the shops receiving repairs.

L. F. White, superintendent of track on the C. H. & D., has been very sick for several weeks. He is said to be rapidly recovering.

Engineer and Mrs. William Shepherd, of south Main street, left today to visit in Cincinnati and Chicago. Engineer Clark, of Huntington, is running Mr. Shepherd's engine in the C. & E. yards.

STEWART M. BRICE

Elected as an Alderman for Greater New York.

Ex-Senator Brice, who has been at home for several days, received the following message this afternoon from New York city:

"Stewart is elected by over thirty-five hundred—think it may be four thousand. JOHN B. TRAINER

The same district in 1896 gave McKinley 17,000. The victory is therefore a remarkable one.
